

STEM WEEK

• *Call for Participants* •

Join Farm Wisconsin as we dive into the world of agriculture science, technology, engineering, and mathematics at our annual STEM Week.

Tuesday, Wednesday, and Thursday | December 28 – 30

10 a.m. – 2 p.m. each day

We are seeking business, organizations, and community groups to bring STEM to life during our three-day event. The event will target families and youth of all ages.

Stations may include a demonstration, experiment, craft, or activity focused around STEM – the more hands-on, the better!

Participants will be expected to staff their station for the whole day, and may plan to attend one, two, or all three days.

Please reach out to Abigail Martin with questions, interest and/or station ideas.
