UW Family Gardening Day Activities

Saturday, May 6th
10 am – 1 pm

Allen Centennial Garden

- **"Pasta Pack"** – Love pasta? Stop by and pick up a four pack of plants that are important in making pasta sauces
- **Tactile Bins** – Practice watering, digging, and spading with our tiny tools
- **Flower pounding** – Create by destroying! Smash plant colors into fabric!
- **And more!**

Steenbock Library and BioCommons

*Free parking next to building in Lot 36
Accessible public restrooms and changing table*

- **Soil Drainage** experiment with WISCIENCE Public Service Fellows
- Start a **microgreens seed kit**
- **Discover books** about gardening, plants, soil, and water
- **And more!**

D.C. Smith Greenhouse

- **Good Bug/Bad Bug?** Investigate common greenhouse residents to find out which ones are a problem and which ones are helpful
- **Let the student be the teacher** – UW Greenhouse Cultivation students will answer questions about crops they are growing and what they are learning
- **Demonstrations** – hydroponics, vertical gardens, plant nutrition, food crops and flower forcing, and beneficial pest control

Wisconsin Energy Institute

*Free parking next to building in Lot 41
Accessible public restrooms*

- **Learn about monarchs & take home milkweed plants** with UW–Arboretum volunteers
- **Tour the Wisconsin Energy Institute:** Step behind the scenes and into state-of-the-art laboratories! Drop-in Tours at 10:30 am and 11:30 am
- **Discover what it takes to turn grass into gas** with hands-on activities
- **And more!**
