UW-Family Gardening Day Passport

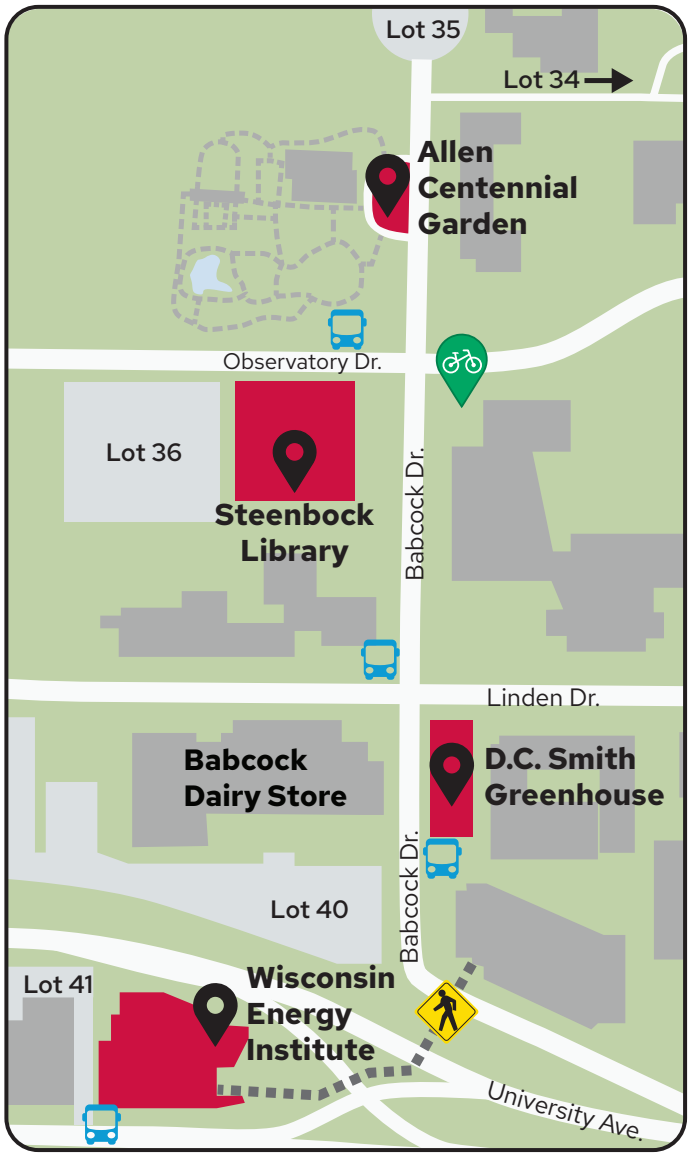

Collect stamps at these 4 locations!

Allen Centennial Garden

Steenbock Library

D.C. Smith Greenhouse

ENERGY
Wisconsin Energy Institute

Give your stamped passport to UW-Family Gardening Day volunteers at the **DC Smith Greenhouse** to receive a small houseplant (while supplies last; one plant for one completed, stamped passport).

Our passport lists just a few of the activities at each location; visit each location to discover more!

Enjoy a visit the Babcock Dairy Store. The store, located at 1605 Linden Drive, is open from 10:00-4:00 PM.

Thank you for visiting us!

UW Family Gardening Day
Activities

Saturday, May 2
10 am – 1 pm

ALLEN CENTENNIAL GARDEN

Allen Centennial Garden

- Pick up a Pasta four pack of plants that are important in making pasta sauces
- Practice watering, digging, and spading with our tactile bins and tiny tools
- Paint rocks with glow-in-the-dark paints for garden exhibit
- Learn about bees and pollinator-friendly plants
- Enjoy activities with UW Forestry Club and The People's Farm

D.C. Smith Greenhouse

- Build a terrarium with plants from the DC Smith Greenhouse
- Let the student be the teacher - UW students will answer questions about their crops and projects including hydroponics, vertical gardening, plant nutrition, and beneficial pest control
- Learn about the Aquaponics system where plants and fish grow together
- View seeds started by The People's Farm
- Give your **stamped** passport **to the greeter** to receive a small houseplant.

Steenbock Library

Free parking next to building in Lot 36 (this is a gated ramp; take ticket to enter, show ticket to exit).
Accessible public restrooms and changing table. Outdoor seating.

- Discover books about gardening, plants, soil, and water
- Color and craft bookmarks and origami frogs
- Meet Friends of the Lakeshore Nature Preserve

ENERGY

Wisconsin Energy Institute

Free parking next to building in Lot 41. Accessible public restrooms.

- Learn about pollinators with UW–Arboretum naturalists and pot milkweed to take home
- Step behind the scenes and into the labs where UW Energy experts make their discoveries with a tour of the LEED-Certified Wisconsin Energy Institute! Drop-in tours at 10:30 am and 11:30 am
- Discover what it takes to turn grass into gas with hands-on activities
- And more!
